#### What is the High/Scope educational approach and goals for young children?

*High/Scope is an "active learning" approach to educating young children:*

- ♦To learn through active involvement with people, materials, events, and ideas.
- ♦To become independent, responsible, and confident, ready for school and ready for life.
- ♦To learn to plan many of their own activities, carry them out, and talk with other children and teachers about what they have done and what they have learned.
- ♦To gain knowledge and skills in important content areas including language (speaking and listening) and literacy (reading and writing), initiative and social relationships, creative representation (visual and dramatic arts), movement, music, and logical thinking (reasoning) in areas of classification (sorting and matching), seriating (arranging things in a series, number, space where things are in relation to other things), and time.

\* Center Time includes Science, Art, Manipulatives, Writing/Phonics, Counting/Sorting, Alphabet Games, Reading Corner, and Home Living
